## How To - Rosettes

1. Start with at least four pages of patterned or coloured paper, preferably 12x12 inch but we're sure A4 will work fine too!
2. Fold your first sheet concertina style and then fold in half.
3. Glue or staple the two inner ends together so it looks like a fan.
4. Repeat with the other three sheets of paper
5. Stick your four fan shapes together on the outer edges so it creates a circle
6. Make a hole at the top and attach some string so you can hang your paper rosette from the ceiling!
